

Child Safe Environments Policy

Purpose

The Child Safe Environments Policy: sets out the school's approach to creating a child safe organisation where children and young people are safe and feel safe; and provides the policy framework for the school's approach to the Child Safe Standards.

Scope

All staff, volunteers, contractors and whether or not they work in direct contact with children or young people. This policy will apply across a range of school forums (e.g. camps, online) and outside of school hours.

Statement of Commitment to Child Safety

Kunyung Primary School is committed to safety and wellbeing of all children and young people. This will be the primary focus of our care and decision-making.

Kunyung Primary School has zero tolerance for child abuse.

Kunyung Primary School is committed to providing a child safe environment where children and young people are safe and feel safe, and their voices are heard about decisions that affect their lives. Particular attention will be paid to the cultural safety of Aboriginal children and children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability.

Every person involved in Kunyung Primary School has a responsibility to understand the important and specific role he/she plays individually and collectively to ensure that the wellbeing and safety of all children and young people is at the forefront of all they do and every decision they make.

In its planning, decision-making and operations, Kunyung Primary School will:

1. Take a preventative, proactive and participatory approach to child safety
2. Value and empower children to participate in decisions which affect their lives
3. Foster a culture of openness that supports all persons to safely disclose risks of harm to children
4. Respect diversity in cultures and child rearing practices while keeping child safety paramount
5. Provide written guidance on appropriate conduct and behaviour towards children
6. Engage only the most suitable people to work with children and have high quality staff and volunteer supervision and professional development
7. Ensure children know who to talk with if they are worried or are feeling unsafe, and that they are comfortable and encouraged to raise such issues
8. Report suspected abuse, neglect or mistreatment promptly to the appropriate authorities
9. Share information appropriately and lawfully with other organisations where the safety and wellbeing of children is at risk
10. Value the input of and communicate regularly with families and carers.

Policy and procedures

Policies and procedures outlining Kunyung Primary School's approach to the Child Safe Standards are outlined below. For further information, please contact the school's Principal or Assistant Principal.

A child-safe culture

Kunyung Primary School's culture encourages staff to raise, discuss and scrutinise concerns making it more difficult for abuse to occur and remain hidden.

The school's plan for creating a child safe culture can be found embedded within all school policies, particularly in this policy, the Child Safety Code of Conduct and the Student Engagement Policy.

Personnel understand their roles and responsibilities/Code of Conduct

School leaders and managers will ensure that each person understands their role, responsibilities and behaviour expected in protecting children and young people from abuse and neglect. Staff will comply with the school's Code of Conduct.

The school's Code of Conduct sets out clear awareness of the difference between appropriate and inappropriate behaviour. It is complimentary to all other professional or occupational codes of conduct. - Refer to the Victorian Institute of Teaching - Victorian Teachers Professional Codes of Conduct and Ethics ,

Human resources practices and training

The school applies best practice standards in the recruitment and screening of staff, and will take all reasonable steps to ensure that it engages the most suitable and appropriate people to work with children. We will ensure that staff induction, education and training programs are a vital part of our commitment to safeguarding children and young people from abuse and neglect. All prospective staff and volunteers are required to undergo National Criminal History Records check and maintain a valid Working with Children Check.

The school's approach to human resources practices that ensure child safety align with Departmental Policy and processes

Reporting a child safety concern or complaint

The school has clear expectations for staff and volunteers in making a report about a child or young person who may be in need of protection. Immediate action should include reporting their concerns to the DHHS Child Protection or another appropriate agency and notifying the principal or a member of the school leadership team of their concerns and the reasons for those concerns. The school will take action to respond to a complaint.

Risk reduction and management

The school believes the wellbeing of children and young people is paramount, and is vigilant in ensuring proper risk management processes. The school recognises there are potential risks to children and young people and will take a risk management approach by undertaking preventative measures.

Listening to children

The school has developed a safe, inclusive and supportive environment that involves and communicates with children, young people and their parents/care givers. We encourage child and parent/care giver involvement and engagement that informs safe school operations and builds the capability of children and parents/care givers to understand their rights and their responsibilities.

When the school is gathering information in relation to a complaint about alleged misconduct with, or abuse of, a child the school will listen to the complainant's account of things and take them seriously, check understanding and keep the child (or their parent/carer) informed about progress

Confidentiality and Privacy

This school collects uses and discloses information about particular children and their families in accordance with Victorian privacy law. The collection, use and storage of information is included in school policies.eg DET Privacy Policy, Student Engagement Policy

Policy evaluation and review

To ensure ongoing relevance and continuous improvement, this policy will be reviewed in the context of school self-evaluation undertaken as part of the school accountability framework. This review will include input from students, parents and the school community.
