### **3. Engagement strategies**

Kunyung Primary school has developed a range of strategies to promote engagement, positive behaviour and respectful relationships for all students in our school. We acknowledge that some students may need extra social, emotional or educational support at school, and that the needs of students will change over time as they grow and learn.

A summary of the universal (whole school), targeted (year level specific) and individual engagement strategies used by our school is included below:

#### **Universal**

Kunyung Primary School uses the School Wide Positive Behaviour Support framework. The School Wide Positive Behaviour Support (SWPB) involves the establishment of a Continuum of Behaviour Support that considers all students and emphasises prevention, to develop positive, safe, supportive learning cultures.

SWPB is a proactive approach and focuses on teaching all students agreed expected behaviours and pro-social skills rather than reacting to inappropriate behaviour. This in turn creates a safer and more effective school environment.

The primary prevention aspect of SWBP consists of values which are explicitly taught and modelled by school staff to encourage appropriate behaviour. Teaching behavioural expectations and acknowledging students for meeting them is a much more positive approach than waiting for misbehaviour to occur before responding.

At Kunyung Primary School the students own the behaviours that are expected using our Approaches to Learning (ATL). The Approaches to Learning are a set of strategies and skills which are intrinsically linked to the learner profile attributes.

The SWPBS framework assists to improve social, emotional, behavioural and academic outcomes for our students.

Behavioural expectations of students, staff and families are grounded in our school's Statement of Values. Student bullying behaviour will be responded to consistently with Kunyung Primary School's Bullying Prevention policy.

When managing inappropriate student behaviour Kunyung Primary School uses a Staged Response Model.

Kunyung Primary School incorporates a Restorative Practice framework when responding to inappropriate behaviour. We aim to restore relationships that have been affected by a member of the school community.

When a student acts in breach of the behaviour standards of our school community, Kunyung Primary School will institute a staged response, consistent with the Department's Student

Engagement and Inclusion Guidelines. Where appropriate, parents will be informed about the inappropriate behaviour and the disciplinary action taken by teachers and other school staff.

Disciplinary measures may be used as part of a staged response to inappropriate behaviour in combination with other engagement and support strategies to ensure that factors that may have contributed to the student's behaviour are identified and addressed. Disciplinary measures at our school will be applied fairly and consistently. Students will always be provided with an opportunity to be heard.

Disciplinary measures that may be applied include:
